

# KEYPrime Intro

## Simple cashbook accounting with a sales invoicing facility

KEYPrime Intro is our entry level product in our Accounts range. It is ideal for businesses running a simple cash accounting system and who may need to raise sales invoices. Budgeting and cashflow reporting is available at the touch of a button – far easier than using a spreadsheet or manual ledger.

Available as a PC install or web hosted version, you can purchase KEYPrime Intro or pay by monthly rental.

## Benefits

### Designed for Farmers

- Clear, easy to understand menus
- Logical data entry screens
- Forgiving of mistakes

### Automatic calculation of VAT

- You enter the information, KEYPrime calculates the VAT – no more missing pennies

- Transfer your data to your accountant easily

## Included as standard

- Personalised set up – ready to use
- Ongoing support and development
- Sales invoicing
- Bank reconciliation
- Automated VAT returns
- Document storage
- Budgeting
- Cashflow reporting

## Don't just take our word for it...

“The support of any program needs to be good, Landmark support is helpful and the people are friendly and understanding. I didn't choose my career in farming to be in the office all day and so my advice is to look at the programs you like but most importantly check out the support – it does not work for me if the support is too technical

– I like plain English!”

**Jim Dufosee, Wiltshire**
