

KEYPrime

Link to Geofolia

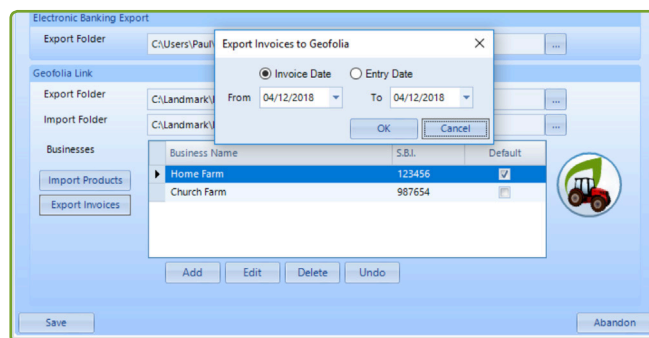

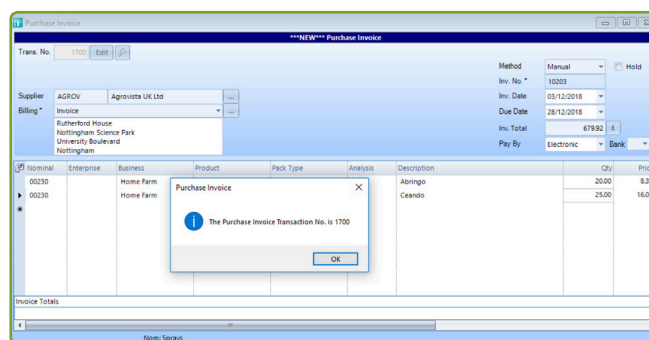

Save time and reduce duplication by entering commodity purchases only once.

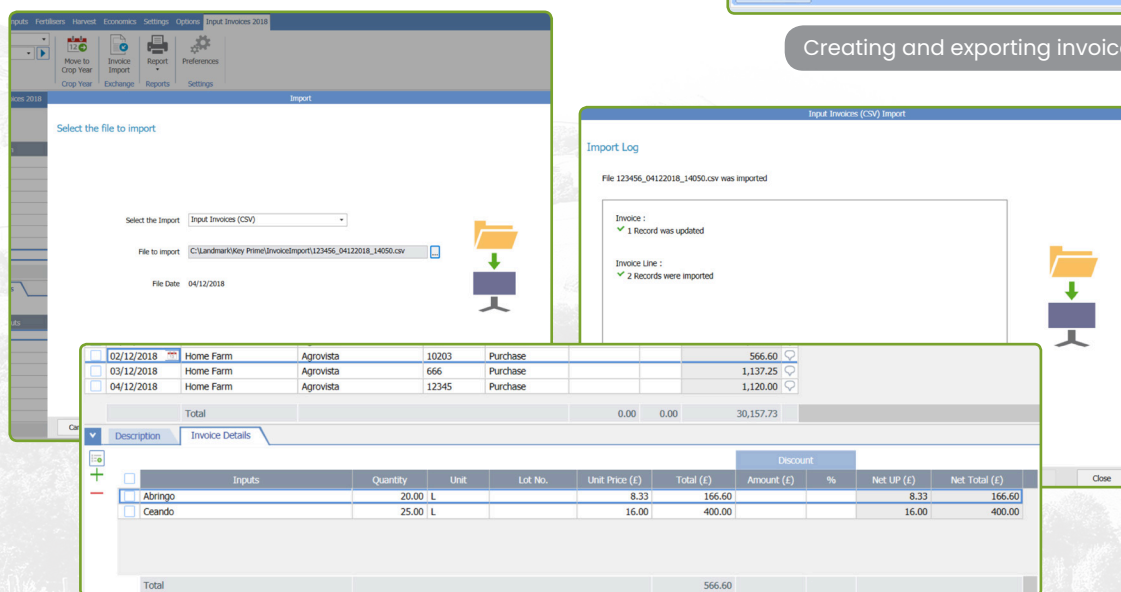

- The KEYPrime link to Geofolia allows commodity purchases to be entered into KEYPrime Accounts and imported into Geofolia.

Advantages

- Time saving – why enter the same information twice?
- Improved stock reconciliation between programs
- Improved accuracy of data
- Links to complementary software
- By importing from KEYPrime Accounts into Geofolia, your stock and field records will have more accurate and reliable prices

Creating and exporting invoices from KEYPrime

Importing exported invoices into Geofolia
