

# KEYPrime METER READING

The Meter Reading module for the KEYPrime range will take the hassle out of recording and recharging for metered services. No more complicated spreadsheets or duplicated effort.

## Do these problems sound familiar?

- Lost and missed meter readings
- Time consuming recharge calculations for manual creation of recharge invoices
- Maintaining an unwieldy readings spreadsheet – more duplicated effort
- Difficulty in monitoring usage and history
- Only one person in the office knows the location/serial numbers of the meters

If you recharge customers and tenants for any kind of metered utility or service, the Meter Reading module for the KEYPrime range will dramatically improve administrative efficiency.

## Imagine a meter reading system that can...

### 1. Allow you to keep all meter details in one place

Meter reader validation checks. Plus keep all parent and sub-meter details in one place.

Never forget the location of a meter again!

Figure 1: Keep all meter details in one accessible place

To discuss the different options that are available please call Landmark Systems on 01798 877100

## 2. Record readings, raise and email recharge invoices in one simple step.

Type	Meter group	Analysis code	Customer code	Last reading	Last read	Reading Date	Type	Consumption	Per day	Reading by	
LS	Caravans Bottom Field	CRV02	CRVHNT	160001	10/01/2020	161003	30/06/2020	Actual	1002	5	AJ

Use readings history reports to help you pick up any anomalies.

Spot damaged pipes and meters from your desk.

## The benefits of the KEYPrime Meter Reading module:

- **Save time** - reduce three steps to just one!
- **Simplify the task of meter reading** - no more complex spreadsheets to maintain
- **Pick up leaks and unusual usage patterns**
- **Improve auditability** - a valuable tool for supplier and customer disputes
