Exporting Spray Recommendations to Geofolia

- Download the Adviser update from here <u>http://www.pearsupport.co.uk/Adviser7/FieldmanAdviserPatch_7067.exe</u>
- 2. Run the file to install the update which should update your program to version **7.06.7**. You can check your version by looking here

- 3. Ensure that the field names do not contain any special characters, just letters and numbers.
- 4. Create the spray recommendation(s) as normal.
- Ensure that the relevant farm(s) are NOT setup for 'Auto Mail Box settings'. If required to check this, go to Set Up Data > Client > select farm > Update Selected Client. On this page make sure the email(Auto) box is empty and the tick boxes below it are empty as below. Click Save.

Auto Mail Box settings:								
email(Auto):								
Send PDF Report Send auto import File to Fieldman Farmer by Mail Box:								
Make a Mail Box Key								
Farm has Contractors with Pear Contractor program:								

6. Go to Data Transfer from the home page and then click on this button. You will notice Geofolia is now mentioned in the text opposite.

2015-2016 Data Transfer
Include Costs to HQ (And e-mail to customers for auto import to Fieldman Farmer.)
Pocket PC Data Exchange
Operations to BlackBox
Operations From BlackBox Error Setup file or Cropping update file to Fieldman Farmer
Your Data Updates Farm Setup file to or from Adviser/Contractor
Import Farm Details from Fieldman Farmer
Export Field Data to Excel
< Main

7. Ensure 'Geofolia' is selected in the top right of the screen.

	< Back					< Main		

- 8. Select the relevant farm from the Farm Name selection box.
- 9. A list of all recommendation in the selected year will display in the list below along with the date the recommendation was created and the date it was exported, if applicable. You will see that recommendation PAG1116 has not yet been exported in the image above.
- 10. Select one or multiple recommendations to export.
- 11. Click on blue Export button.

12. Click OK if you see this message.

Check your custom	er						
To use the Pear MailBox your customer must have Fieldman Farmer level 5.057 or later. Please ensure he has updated to this level.							
ОК	Continue.						
Hide	Continue. Do not show this warning again.						

13. The file name will default to the recommendation number but can be changed if required. It will be in xml format so do not change the format. Choose where you want to save the file. Click Save.
